Higher Degree Research
Management Solution

ResearchMaster Higher Degree Research (HDR) Management Solution is an Australian end-to-end solution that collects, stores and manages information related to the research activity of HDR students and academics.

Administering quality higher degree research is a difficult task. Managing hundreds of candidates, tracking where they are in their projects, monitoring applications and scholarship, and overseeing milestones and submissions — especially with the increasing prevalence of cross- and multi-disciplinary research — can be time consuming and complicated.

ResearchMaster HDR Management Solution is an Australian-made and -supported solution, designed with the needs unique to higher degree research in mind. It is purpose-built and developed to meet the needs of the Australian HDR sector.

The HDR Management Solution is aimed at ensuring that researchers and administrators can access detailed and accurate information, allowing for fast, complete and efficient monitoring and management. The solution streamlines and automates key processes and provides users with the ability to manage all aspects of HDR candidature requirements, from initial application to final outcome, including grants, ethics applications, milestones and assessments, to support administrators and researchers throughout the whole HDR lifecycle. The Supervisor Registration solution streamlines and simplifies how supervisors manage, maintain and renew registration, accreditation and training details.

THE RESEARCHMASTER HDR MANAGEMENT SOLUTION INCLUDES:

- A highly automated, fully integrated, research management system
- The capability to link candidates to other research activities including ethics applications, projects, contracts and research outputs
- Access to a dedicated HDR product advisor to ensure users get the most out of the solution
- Online eForms and workflows to support applications, milestone management, thesis submission, candidature variations and examinations
- Scholarship Management and Payment Tool to support scholarships from application to payment

THE RESEARCHMASTER HDR DIFFERENCE

- Designed, developed and supported in Australia
- Purpose-built and sensitive to the specific needs of the HDR sector
- Reliable, efficient access to accurate information throughout the whole HDR lifecycle
- Automates reviews and forms via eForm and workflow technology
- Manages and tracks students against other research activities
- Tracks grants and scholarships, from applications to payments
- Manages supervisor registration processes
